BUYER'S GUIDE
FLANGES

ECOGATE®

2021-06-25

Our blast gates come with flanged ends and by default are compatible with flange rings. We also offer the Flange to QF Adapters for QF duct systems (Quick Fit by Nordfab).

Steel Flange Rings

SKU: EG.204F - EG.228F

Flange rings are the more budget friendly option and are compatible with most traditional duct systems.

Flange to QF Adapters

SKU: EG.204QF-SET - EG.218QF-SET

QF adapaters are fitted with an industry standard angle flange on one end that connects to an Ecogate, and a Quick-Fit (QF) rolled edge at the other that easily connects to the duct.
